02 *Digital Capture*

We have advanced medium-format digital systems: digital backs, cameras, lenses and accessories plus the option to use the services of our Certified Digital Technicians.

The most modern medium-format digital systems

The latest and most outstanding products from the leading Danish Brand Phase One: XF Camera, the only IQ3 100 digital back with immediate availability in Madrid or the powerful IQ 350, as well as a broad range of Schneider Kreuznach lenses, including their latest Blue Ring range. Other options available.

H **Canon** **PHASEONE**
HASSELBLAD

03 *Lighting*

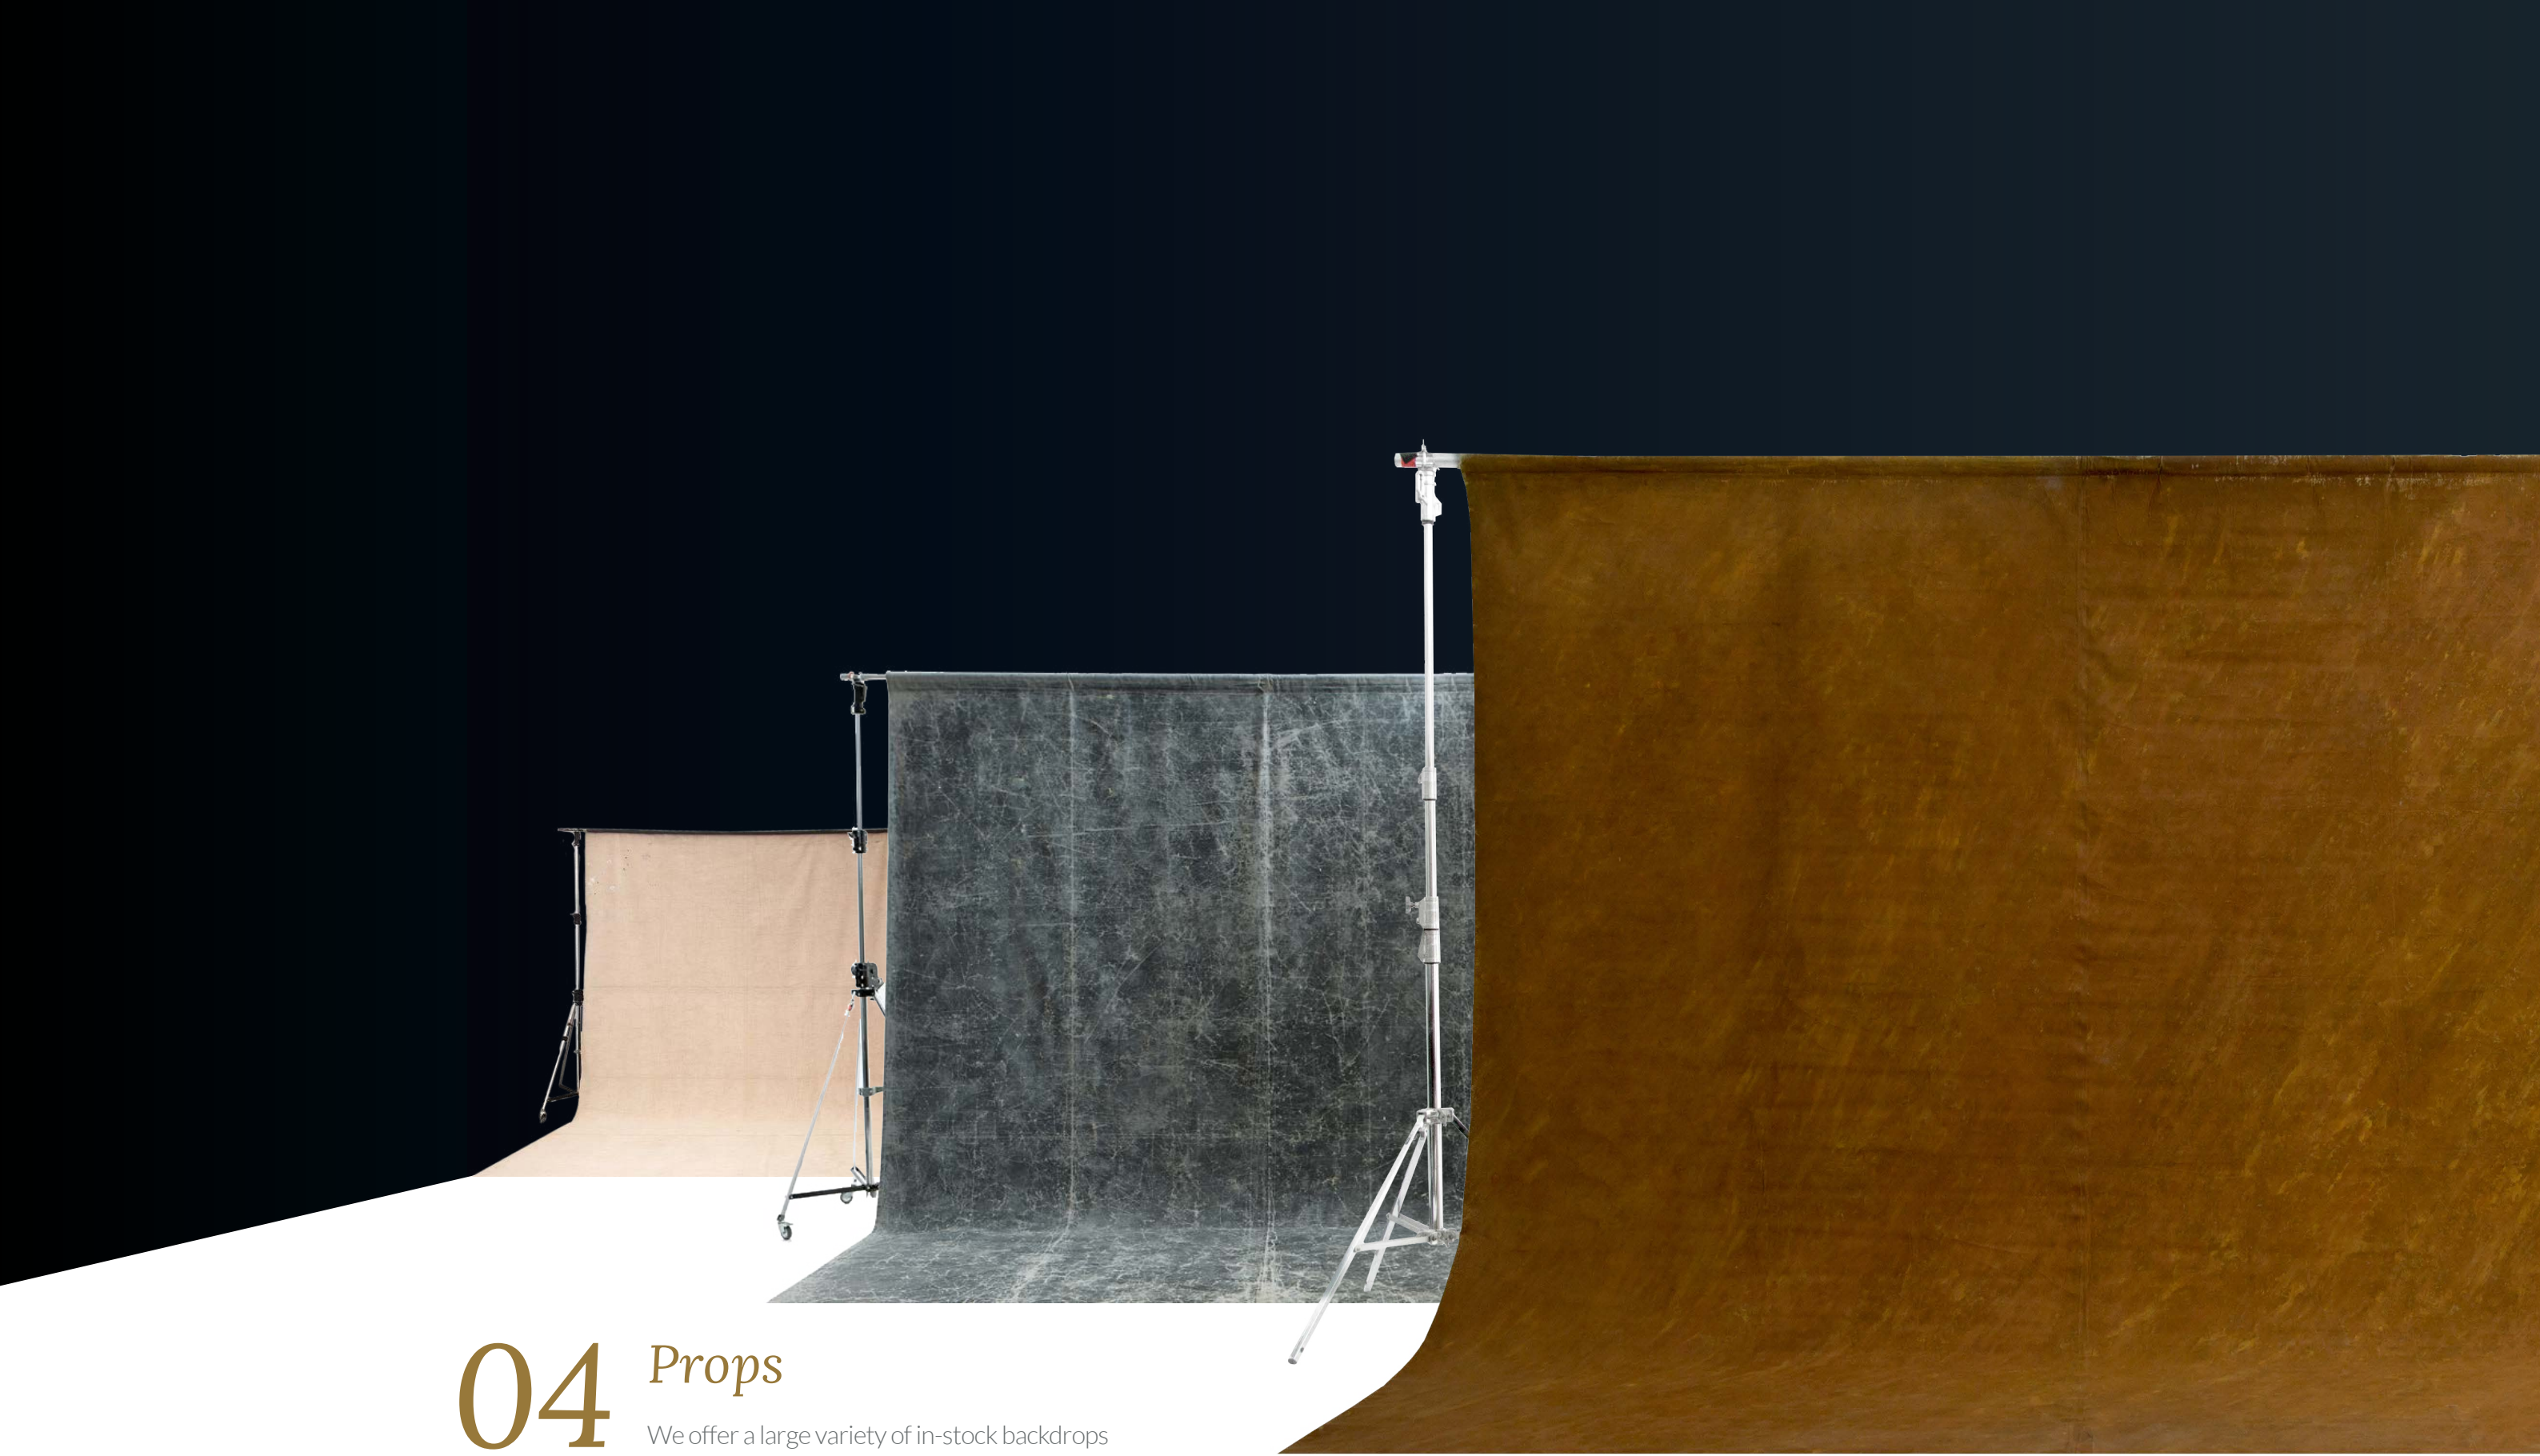

We offer a wide range of products from Swedish manufacturer Profoto: flash equipment, continuous light and all types of light modifiers. Other options available.

The most comprehensive catalogue of Profoto's lighting equipment

From the most recent and fastest generators like the Pro-10, the powerful Pro-8a and Pro-b4 and heads (ProHead Plus and Pro-B Head Plus) to compact equipment such as the D2 flashes, with TTL and an unmatched speed, but also the B1 and B2 and the modern, lightweight OCF line. Check our catalogue where you will also find Giant reflectors, umbrellas, softboxes...

04 *Props*

We offer a large variety of in-stock backdrops that are made of different materials and we provide a highly-skilled service of set building and custom backdrop creation. Daylight Studios also works with companies specialized in furniture rental.

Create the best atmosphere for your production with our backdrops and sets

Different sized rigid, textile or paper-made backdrops as well as custom-made sets for the creation of all sorts of atmospheres: classic, avant-garde, vintage, minimalist, industrial...

05 Vehicles

Our permanent fleet consists of four different rental vehicles: van, microbus, motorhome and truck, adapted to meet the requirements of any photographic production. Check for other options.

Our versatile fleet has four vehicles:

- Motorhome: Our most complete vehicle features a dressing room with mirror and make-up table, wardrobe bar, bathroom with shower and a meeting/lounge area.
- Microbus: Ideal to fit the transportation needs of a production team.
- Van: The new Volkswagen Caravelle 2017 is the most agile vehicle to transport the members of a production team as well as equipment due to its agility and functionality, a powerful 150 horsepower engine, 4motion permanent four-wheel drive system, differential lock, towball and advanced storage solutions.
- Truck: Perfect to transport all type of equipment (especially large items). Its large capacity vehicle features an adaptative storage system for film camera and wardrobe transportation.

All our vehicles include the option to hire additional services such as hiring a driver/assistant with production experience as an added value, gasoline generators, easy-up tent, computer systems or furniture, among others.

06 *Production Services*

We can organize your production by offering you the most comprehensive services and managing your needs with a personalized, reliable and efficient attention.

Permits and Insurance

If you need to do an outdoor shooting or book a location where permits and insurance are required, we can advice you on how to obtain them or we can arrange them for you so you can avoid any worries or setbacks.

Technical Departament

We provide you with the expertise of our digital technicians as well as the best set assistants to ensure the development of a smooth and problem-free production.

Representation

We grant you access to a diverse portfolio of well-known photographers with a proven working experience so you can choose the profile that best fits your production.

Travel and Accommodation

Thanks to our long-lasting experience in all types of projects, we have the know-how to organize your travel and accommodation needs in the production destination of your choice.

Art Buying

Based on our experience in the sector we offer you guidance, contacting with all the local talents involved in a production, from photographers with a proven track record to experienced art directors that will contribute by bringing their artistic knowledge with the final purpose of creating a perfect atmosphere.

Photographic Lab

Daylight Lab, within walking distance from our studios, provides the neccessary support to perform services such as immediate printed copies of captured images during or at the end of the shooting.

Casting

Daylight Studios can also help you to contact different model agencies or manage a casting process directly by placing our facilities at your disposal.
